

As many of you already know, the Coronavirus and the number of reported cases in the United States and other countries has continued to grow over the last few days. Our highest priorities are the health and safety of our customers, our staff, and the well-being of the communities we serve. We want to let you know that we are monitoring the severity of this virus very closely. To that end, like many banks, we have activated our Pandemic Contingency Plan as a precautionary step in response to COVID-19. This plan includes but is not limited to, increased cleaning and sanitization efforts in both of our locations, as well as keeping our products and services fully available to you. We believe that First Missouri State Bank is well postured for stable business continuity in the event of pandemic development given that many of the mission critical banking services we provide are virtual or web-based. As a customer, now would be a good time to test your online banking passwords, to ensure that you have access to your online account. Should you have any questions or concerns, please contact us at 573-785-6800 or email us at [fmsb@firstmissouristatebank.com](mailto:fmsb@firstmissouristatebank.com). Please let us know if we can assist you in any way in the coming days and weeks.
